Above & Beyond

About Above & Beyond

Since 2010, Above & Beyond has become a leading manufacturer of high-quality tents, sails and shade solutions, manufacturing 5,000 products annually. With our own manufacturing unit based in Belgium, we take pride in controlling every step of the production process. Our dedicated team of +30 experts, including sail specialists and an innovative R&D team, ensures that every product we deliver is crafted with precision and care.

With additional capabilities in wood and aluminium machining, we've expanded our expertise to offer a broader range of solutions.

Our commitment to quality is present through both the materials we use and the service we deliver. We believe in building lasting relationships with our clients by offering personalized guidance and support throughout the buying process.

Inhouse production & R&D

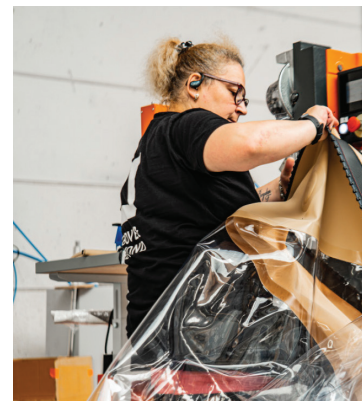

Our commitment to craftsmanship and innovation is at the heart of our manufacturing. Our advanced production department is equipped with state-of-the-art machinery and a team of experienced professionals, enabling us to produce high-quality tents, shelters, shade cloths and other outdoor structures.

In our pursuit of excellence, we combine various production facets to deliver distinctive products. Our cloth and sail production department, equipped with multiple advanced welding machines, creates durable and weather-resistant tent cloths that can withstand the most demanding conditions.

Our focus on quality is also present in the metal and woodworking processes. Our skilled employees provide sturdy metal frames and wooden structures that form the basis for our various outdoor products.

A dedicated team of stitchers ensures strong seams, while our aluminium machining area produces high-quality aluminium components for strength and stability.

Warehouse

The warehouse at Above & Beyond is a modern, high-capacity facility designed for efficiency and scalability. With space to store approximately 5,000 pallets, it's perfectly suited for handling large volumes of goods with ease. The warehouse features four fully equipped loading docks, allowing for fast and streamlined loading and unloading operations. Combined with a well-organized layout and a highly efficient workflow, we ensure quick turnaround times and reliable handling of inventory.

Inflatable tent

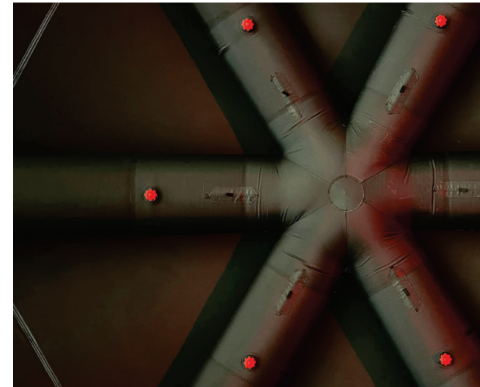

The inflatable tent is a modern, notable and easily transportable promotional tent. Thanks to the unprecedented personalisability of the tent, you stand out in any occasion. In fact, you can add customised printing to both the roof and the sidewalls. Thanks to the accessible set-up and take-down and the tent's light weight, it is very easy to transport and one person can easily set it up alone. If you ask us to describe these tents in two terms, we say: ease of use and personalisation!

**ABOVE &
BEYOND**

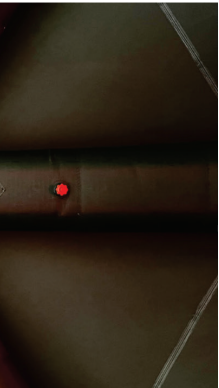

Frame

The tent can be inflated in no time by means of an electrical pump or battery pump. Its inflatable frame is made of extremely lightweight Dacron, making it easy to transport. The frame and roof can be rolled up compactly enough to effortlessly fit in a backpack or storage trolley.

Roof

The roof of our inflatable tents is fully printable, detachable, and designed for easy installation with strong YKK zippers, ensuring a secure and durable fit. If you rebrand or need a different design for a specific event, you can purchase a separate roof and easily swap it out. This versatility allows you to adapt your tent's look to different occasions while maintaining a professional and eye-catching presence.

Sidewalls

Our inflatable tents can be fitted with a variety of sidewall options to suit your needs, including sidewalls with door (two types), window, panoramic window, and fully closed walls. All sidewalls are fully printable and reversible, allowing you to choose whether the printed design faces outward for maximum visibility or inward for a more enclosed look. This flexibility ensures that your tent is both functional and visually impactful, no matter the setting.

3 types

We offer three types of inflatable tents to suit different needs and event sizes. Our Globe tent is the most popular option, available in four sizes and fully customizable for a unique look. The Zodiac stands out with its distinctive design, where two legs merge into one large leg, creating an even larger branding area. It offers a bold and dynamic appearance. For those looking to make the biggest impact, our Galaxy tent is the largest in our range, featuring six legs instead of four for extra stability and an impressive height. Available in 8×8 m and 10×10 m, this tent is designed to stand out and ensure maximum visibility at any event.

Customisation

The incredible customisability of the inflatable tent makes it the promotional tent of choice to highlight your event, company, sponsor or association.

The frame and roof canvas can be rolled up together compactly and a wide range of accessories are available for inflating, storing or anchoring the tent, and for connecting several inflatable tents.
